

**THE REVOLUTIONARY DEVELOPMENT FOR PAINTWORK PREPARATIONS
NO VACUUM CLEANER BAGS NEEDED - JET-SUCTION SYSTEM INCLUDED.**

FEATURES

- Reinforced, continuously variable, brushless and cooled jet-suction-turbine with 1.800 watts power
- Push-button and potentiometer control for rotation speed of turbine
- Integrated jet-suction-system without cleaner bags with separate 10 liter dust container
- Sensor- and pressure controlled cleaning system based on Venturi-principle
- Easily accessible integrated and secured cabinet
- Powder-coated body housing made of 1.5 millimeters steel metal sheets
- Placement area and workspace completely made of stainless steel
- 4-reel chassis with central lock and parking brake, suitable for open-mesh flooring
- 3 lockable drawers with smooth gliding self-closing mechanism
- Holders for scrapers, rasp strips, abrasive paper pads and adhesive tapes
- Holder for tube package on the backside
- Handlebars on the front- and backend of the workstation
- Lockable drawer with individually adjustable inserts and vision panel
- Removable washbasin with cover
- Removable secure immersion dispenser for solvents manufactured by Colad®
- 7-slot sorter for abrasive pads
- Integrated industry grade self-retracting cable roller with 6 meters, 2.5mm diam. special power cable
- 230 V on-board power supply with 3 power outlets, type "Schuko" and emergency switch-off button providing complete power network cut-off immediately
- Built-in air pressure supply with enhanced flow-rate, fully adjustable, 3 air pressure couplings and pressure
- Gauge in the workplace area
- Holder for hot air blower
- Holder for excenter-grinding machine
- Easy access dust filtering system 4 cartridges
- Double jet-suction connection with "one-fits-all" adapter for all connectors
- Noise-reduced power engine with anti-noise encapsulation
- Integrated, lockable and foldable footboard step ladder "Up and Down"
- Integrated RCCB Switch ensures safe operation of connected electrical devices
- Integrated Siemens-Digital Control to individually program and adapt the workstation
- Workstation body powder coated in anthracite-grey (RAL 7016) or aluminum-white (RAL 9001)
